JBL Bar 2.1 Deep Bass Soundbar

JBL's entry-level sound bars are incredibly popular because they provide a big improvement to your TV sound at a very reasonable price. The Bar 2.1 Deep Bass adds even more bang for your buck with a wireless subwoofer. The sub's 6-1/2" down-firing woofer delivers the low-end rumble that gives this combo its name. And the bar is no slouch either. Its low-resonance enclosure houses six drivers — four long-excursion racetrack-shaped drivers and two 1" dome tweeters. The bar's "Smart Mode" makes sure you get great sound no matter what you're watching by applying EQ settings and digital signal processing to deliver rich sound effects for movies, sports, and shows.

Easy connections

This duo is super-simple to set up. The sound bar can connect to your TV with a single cable. You can wall-mount it with the included brackets or just place it on your TV stand — it will look great either way, thanks to its streamlined design. It also has Bluetooth built in, making it easy to wirelessly stream your favorite tunes right from your compatible phone.

The included subwoofer is wireless, so you can place it almost anywhere in the room. It just needs to be within about 30 feet of the sound bar and in the general vicinity of a power outlet.
